Premium Kitty (Female)	✓	✓	✓	✓	✓	✓	✓	20%	\$755	\$191

* Items cannot be removed FROM packages, but optional extras can be added TO packages and that package's discount applied eg Microchip can be added to Indoor Kitty Package, at \$58 less 5%

+ The indoor package is only recommended for those cats who will be kept permanently inside the house or within a cat run, and are not exposed to other cats who may themselves be or become FIV +ve.

Package conditions:

Package must be paid for in full at the time of first service

No reduction in price will apply to packages, even if aspects of a package are not required. If certain services are not required, an alternative package may be more suitable.

Desexing must occur at or before 6 months of age.

Owner is responsible for returning for vaccinations and desexing at appropriate times.

When circumstances prevent the completion of a package, it will be fully refunded, minus the standard price for services already provided.

* Items cannot be removed FROM packages, but optional extras can be added TO packages and that package's discount applied eg Microchip can be added to Introductory Kitty FIV Package, at \$58 less 10%

Package conditions:

Package must be paid for in full at the time of first service

No reduction in price will apply to packages, even if aspects of a package are not required. If certain services are not required, an alternative package may be more suitable.

Introductory Kitty (FIV) package is for those kittens under 6 months of age who are already F3 vaccinated.

Cats over 6 months of age are sexually mature, and are no longer eligible for the desexing component of the package.

Cats over 6 months of age must be blood tested for FIV exposure prior to the commencement of the package.

The owner is responsible for returning for vaccinations at appropriate times.

When circumstances prevent the completion of a package, it will be fully refunded, minus the standard price for services already provided.
